CURRENTLY SOFTWARE ARCHITECT AT DIGITEC GALAXUS

ROMAN WEIS

Software Architect & Engineer

Zurich, Switzerland

Experienced Software Engineer & Architect specializing in Domain-Driven Design, large-scale platform modernization, and cloud-native architectures.

PROFESSIONAL EXPERIENCE

Software Architect
AUG. 2024 - PRESENT

Digitec Galaxus AG · Zurich

- Leading architectural evolution of Switzerland's largest e-commerce platform serving millions of customers
- Applying Domain-Driven Design principles to design scalable warehouse logistics systems handling thousands of daily orders
- Driving technology modernization initiatives and establishing architecture governance frameworks
- Pioneering AI-assisted development workflows and tooling to enhance engineering productivity

Fullstack Engineer .NET/Blazor (Contract)
MAY 2023 - JUN. 2024

Axpo Group · Baden

- Architected and developed energy data platform in microservices architecture supporting international energy trading operations
- Implemented event-driven systems with .NET/C#, GraphQL, PostgreSQL, and Blazor for market data processing
- Built automated infrastructure and CI/CD pipelines using Azure, Terraform, TeamCity, and Octopus Deploy

Fullstack Engineer .NET/React (Contract)
JUN. 2022 - APR. 2023

Swiss Life Group · Zurich

- Developed features for insurance platform using React Relay, GraphQL, .NET/C#, MongoDB, and Kubernetes
- Led data migration initiatives from SQL Server to SAP C4C affecting millions of customer records

Founder, Architect & Developer
MAR. 2020 - MAY 2022

Stamy Booking GmbH · Zurich

- Founded and architected SaaS platform for fitness and wellness industry from concept to market launch
- Designed domain model for booking, payments, and customer management applying Domain-driven Design pricniples
- Built multi-cloud infrastructure spanning Azure, GCP, AWS, and Hetzner
- Developed multiple web frontends using Angular, React, and Next.js

Senior Software Engineer
NOV. 2019 - FEB. 2020

Maison du Software (Planzer Spin-off) · Zurich

- Introduced Scrum methodologies and Continuous Delivery practices using Azure DevOps
- Mentored junior developers in software architecture principles and clean code practices

.NET Fullstack Software Engineer
MAY 2017 - SEP. 2019

Zühlke Group · Schlieren

- Modernized complex legacy tax reporting system using .NET Core, SQL Server, Docker, RavenDB, and Angular

PERSONAL INFORMATION

DATE OF BIRTH

November 19, 1985

NATIONALITY

Swiss

ADDRESS

Spyristeig 35, 8044 Zurich

SKILLS

Domain Architecture

- Domain-Driven Design (DDD)
- Strategic Domain Modeling
- Bounded Context Design
- Event Storming & Context Mapping

Platform Architecture

- Microservices & Distributed Systems
- Event-Driven Architecture
- API-First Design
- Scalability & Performance

Cloud & Infrastructure

- Azure Cloud Services
- Google Cloud Platform (GCP)
- Kubernetes & Docker
- Infrastructure as Code

Programming & Technologies

- C#/.NET Core
- TypeScript/JavaScript
- Java & Python
- GraphQL, REST APIs

Architecture Governance

- Architecture Decision Records
- Technology Evaluation & PoCs
- Cross-team Alignment

Leadership & Mentoring

- Technical Leadership
- Architecture Workshops
- Developer Mentoring
- Stakeholder Communication

Marketplace & E-commerce

- Payment Systems Integration
- Order Management Systems
- Inventory & Catalog Management
- User Experience Platforms

- Contributed as fullstack engineer across multiple Scrum teams for private banking platform serving high-net-worth clients
- Applied Domain-Driven Design principles in Master's thesis focusing on software architecture modernization

Software Developer
JAN. 2017 - MAY 2017

Freelance · Zurich

- Developed Java application for forex trading strategy backtesting with real-time market data analysis

Aerodynamics Engineer GT Compressor
OCT. 2012 - DEC. 2016

Ansaldo Energia (formerly Alstom Power) · Baden

- Led aerodynamic design of gas turbine compressors for power generation facilities
- Modernized legacy Rolls-Royce design system using Python, PyQt, and PostgreSQL
- Managed technical integration of design software during corporate acquisition, coordinating cross-functional teams

EDUCATION & CERTIFICATIONS

Master of Computer Science (Grade 1.4)
GRADUATED 2019

University of Applied Sciences Trier - Distance Learning · Trier / Remote

- Master's Thesis: Domain-Driven Design, Microservices Architecture, CQRS, Event Sourcing (Grade 1.0)
- Completed distance learning program alongside full-time software engineering projects
- Specialized in distributed systems, software architecture patterns, and enterprise integration

Diploma in Mechanical Engineering (Grade 1.7)
GRADUATED 2012

Technical University of Kaiserslautern · Kaiserslautern

- Specializations: Energy Technology, Mechanical Engineering Fundamentals, Fluid Mechanics
- Diploma Thesis at Rolls-Royce, Dahlewitz: Numerical Investigations & CFD Simulations of Casing Treatments (Grade 1.0)
- Strong foundation in systems thinking and optimization principles applied to software engineering

High School Diploma (Grade 2.2)
GRADUATED 2007

Christian von Mannlich Gymnasium · Homburg (Saar)

- General university entrance qualification

Professional Certifications
2018 - 2022

iSAQB · IREB · Vaughn Vernon

- Certified Professional for Software Architecture, Foundation Level (iSAQB), Oct. 2022
- Certified Professional for Requirements Engineering, Foundation Level (IREB), Apr. 2019
- Domain-Driven Design Workshop with Vaughn Vernon, Sep. 2018

DevOps & Quality
- CI/CD Pipelines
- Observability & Monitoring
- Testing Strategies
