CURRENTLY SOFTWARE ARCHITECT AT DIGITEC GALAXUS

ROMAN WEIS

Domain Architect & Software Engineer

Zurich, Switzerland

Experienced Architect specializing in large-scale platform modernization, Domain-Driven Design, and cloud-native architectures. Proven track record in e-commerce, marketplace platforms, and financial domains with CHF billion+ transaction volumes.

PROFESSIONAL EXPERIENCE

Software Architect — AUG. 2024 – PRESENT
Digitec Galaxus AG · Zurich

- Leading architectural evolution of Switzerland's largest e-commerce platform serving millions of customers
- Designing scalable warehouse logistics systems handling 100K+ daily orders using Domain-Driven Design principles
- Mentoring cross-functional teams on architecture patterns, microservices design, and cloud-native best practices
- Driving technology modernization initiatives and establishing architecture governance frameworks
- Pioneering AI-assisted development workflows and tooling to enhance engineering productivity

Fullstack Engineer .NET/Blazor (Contract) — MAY 2023 – JUN. 2024
Axpo Group · Baden

- Architected and developed energy data platform in microservices architecture serving multi-billion CHF energy trading operations
- Implemented event-driven systems with .NET/C#, GraphQL, PostgreSQL, and Blazor for real-time market data processing
- Built automated infrastructure and CI/CD pipelines using Azure, Terraform, TeamCity, and Octopus Deploy
- Collaborated with domain experts to model complex energy trading workflows using DDD principles

Fullstack Engineer .NET/React (Contract) — JUN. 2022 – APR. 2023
Swiss Life Group · Zurich

- Developed features for insurance platform using React Relay, Hot Chocolate GraphQL, .NET/C#, MongoDB, and Kubernetes
- Led data migration initiatives from SQL Server to SAP C4C affecting millions of customer records
- Implemented scalable API designs supporting high-volume insurance policy management workflows
- Collaborated with product teams to translate business requirements into technical specifications

Founder, Architect & Developer — MAR. 2020 – MAY 2022
Stamy Booking GmbH · Zurich

- Founded and architected SaaS platform for fitness and wellness industry from concept to market launch

PERSONAL INFORMATION

DATE OF BIRTH
November 19, 1985

NATIONALITY
Swiss

ADDRESS
Spyristeig 35, 8044 Zurich

SKILLS

Domain Architecture
- Domain-Driven Design (DDD)
- Strategic Domain Modeling
- Bounded Context Design
- Event Storming & Context Mapping

Platform Architecture
- Microservices & Distributed Systems
- Event-Driven Architecture
- API-First Design
- Scalability & Performance

Cloud & Infrastructure
- Google Cloud Platform (GCP)
- Multi-Cloud (Azure/AWS)
- Kubernetes & Docker
- Infrastructure as Code

Programming & Technologies
- C#/.NET Core
- TypeScript/JavaScript
- Java & Python
- GraphQL, REST APIs

Architecture Governance
- Technical Roadmapping
- Architecture Decision Records
- Technology Evaluation & PoCs
- Cross-team Alignment

Leadership & Mentoring
- Technical Leadership
- Architecture Workshops
- Developer Mentoring
- Stakeholder Communication

Marketplace & E-commerce
- Payment Systems Integration
- Order Management Systems
- Inventory & Catalog Management
- User Experience Platforms

- Designed domain model for booking, payments, and customer management using DDD and event sourcing patterns
- Built multi-cloud infrastructure spanning Azure, GCP, AWS, and Hetzner with automatic failover capabilities
- Developed multiple web frontends using Angular, React, and Next.js with shared design system
- Established technical roadmap, architecture decisions, and development practices for growing engineering team

Senior Software Engineer NOV. 2019 – FEB. 2020
Maison du Software (Planzer Spin-off) · Zurich

- Introduced Scrum methodologies and Continuous Delivery practices using Azure DevOps
- Mentored junior developers in software architecture principles and clean code practices
- Modernized legacy logistics applications serving Switzerland's largest parcel delivery network

.NET Fullstack Software Engineer MAY 2017 – SEP. 2019
Zühlke Group · Schlieren

- Modernized complex legacy tax reporting system using .NET Core, SQL Server, Docker, RavenDB, and Angular
- Contributed as fullstack engineer across multiple Scrum teams for private banking platform serving high-net-worth clients
- Applied Domain-Driven Design principles in Master's thesis focusing on software architecture modernization
- Implemented event-driven patterns and CQRS for handling high-volume financial transaction processing

Software Developer JAN. 2017 – MAY 2017
Freelance · Zurich

- Developed Java application for forex trading strategy backtesting with real-time market data analysis

Aerodynamics Engineer GT Compressor OCT. 2012 – DEC. 2016
Ansaldo Energia (formerly Alstom Power) · Baden

- Led aerodynamic design of gas turbine compressors for power generation facilities
- Modernized legacy Rolls-Royce design system using Python, PyQt, and PostgreSQL
- Managed technical integration of design software during corporate acquisition, coordinating cross-functional teams
- Applied engineering principles that later informed approach to software system design and optimization

DevOps & Quality

- CI/CD Pipelines
- Observability & Monitoring
- Testing Strategies
- Release Management

Russian Fluent

EDUCATION & CERTIFICATIONS

Master of Computer Science (Grade 1.4/6.0)
University of Applied Sciences Trier - Distance Learning · Trier / Remote
GRADUATED 2019

- Master's Thesis: Domain-Driven Design, Microservices Architecture, CQRS, Event Sourcing (Grade 1.0/6.0)
- Completed distance learning program alongside full-time software engineering projects
- Specialized in distributed systems, software architecture patterns, and enterprise integration

---

Diploma in Mechanical Engineering (Grade 1.7/6.0) GRADUATED 2012
Technical University of Kaiserslautern · Kaiserslautern

- Specializations: Energy Technology, Mechanical Engineering Fundamentals, Fluid Mechanics
- Diploma Thesis at Rolls-Royce, Dahlewitz: Numerical Investigations & CFD Simulations of Casing Treatments (Grade 1.0/6.0)
- Strong foundation in systems thinking and optimization principles applied to software engineering

---

High School Diploma (Grade 2.2/6.0) GRADUATED 2007
Christian von Mannlich Gymnasium · Homburg (Saar)

- General university entrance qualification

Professional Certifications 2018 - 2022
iSAQB · IREB · Vaughn Vernon

- Certified Professional for Software Architecture, Foundation Level (iSAQB), Oct. 2022
- Certified Professional for Requirements Engineering, Foundation Level (IREB), Apr. 2019
- Domain-Driven Design Workshop with Vaughn Vernon, Sep. 2018
