CURRENTLY SOFTWARE ARCHITECT AT DIGITEC GALAXUS

ROMAN WEIS

Senior Full Stack Engineer & Software Architect

Zurich, Switzerland

Senior Full Stack Engineer & Architect specializing in distributed REST microservices, Azure cloud-native platforms, and AI-assisted developer workflows. Background spans private banking, insurance, and e-commerce, with hands-on experimentation in agent-based systems and MCP.

PROFESSIONAL EXPERIENCE

Software Architect
AUG. 2024 - PRESENT

Digitec Galaxus AG · Zurich

- Leading architectural evolution of Switzerland's largest e-commerce platform serving millions of customers
- Modernizing legacy systems into resilient, scalable distributed services to meet rapidly growing demand
- Applying DDD principles to improve resilience and scalability of warehouse logistics systems
- Driving cross-team initiatives in highly complex business domains
- Pioneering AI-assisted development workflows, multi-agent tooling, and MCP-based integrations to enhance engineering productivity

Full Stack Engineer .NET/Blazor (Contract)
MAY 2023 - JUN. 2024

Axpo Group · Baden

- Architected a shared data foundation and platform-as-a-service for international energy trading, exposing curated datasets via stateless REST APIs
- Built distributed microservices with .NET/C#, PostgreSQL, Blazor and CI/CD on Azure, Terraform, TeamCity, Octopus Deploy

Full Stack Engineer .NET/React (Contract)
JUN. 2022 - APR. 2023

Swiss Life Group · Zurich

- Developed features for insurance platform using React Relay, GraphQL, .NET/C#, MongoDB, and Kubernetes
- Led data migration initiatives from SQL Server to SAP C4C affecting millions of customer records

Founder, Architect & Developer
MAR. 2020 - MAY 2022

Stamy Booking GmbH · Zurich

- Founded and architected SaaS platform for fitness and wellness industry from concept to market launch
- Built multi-cloud infrastructure spanning Azure, GCP, AWS, and Hetzner with Kubernetes orchestration
- Developed multiple web frontends using Angular, React, and Next.js

Senior Software Engineer
NOV. 2019 - FEB. 2020

Maison du Software (Planzer Spin-off) · Zurich

- Introduced Scrum methodologies and Continuous Delivery practices using Azure DevOps
- Mentored junior developers in software architecture principles and clean code practices

.NET Full Stack Software Engineer
MAY 2017 - SEP. 2019

Zühlke Group · Schlieren

PERSONAL INFORMATION

DATE OF BIRTH
November 19, 1985

NATIONALITY
Swiss

ADDRESS
Spyristeig 35, 8044 Zurich

HOBBIES
Chess (Beginner)

English Fluent

SIDE PROJECTS

dotnetagents.net
Platform for building .NET-based AI agents and MCP servers, exploring agent orchestration and tool-calling.

bognerchess.com
Astro/React chess academy site, built and maintained with generative AI for coding and automated reviews.

SKILLS

AI-Assisted Development

- Agent-based Systems & Multi-Agent Workflows
- Model Context Protocol (MCP)
- Microsoft Agent Framework
- Claude Code, GitHub Copilot Agent
- Generative AI for Code, Tests & Reviews

Distributed Systems

- Stateless REST Microservices & API Design
- Event-Driven Architecture
- Domain-Driven Design (DDD)
- Scalability & Resilience

Cloud, DevOps & SRE

- Azure (preferred), GCP, Multi-Region
- Kubernetes, Docker, Terraform
- GitLab CI/CD, ArgoCD, GitHub Actions
- SRE Practices, OpenTelemetry
- Security Best Practices, GDPR Compliance

- Contributed as Full Stack engineer across multiple Scrum teams for a private banking and wealth management platform serving high-net-worth clients
- Modernized complex legacy tax reporting system using .NET Core, SQL Server, Docker, RavenDB, and Angular
- Applied Domain-Driven Design principles in Master's thesis focusing on software architecture modernization

Software Developer
JAN. 2017 - MAY 2017

Freelance · Zurich

- Developed a Java application for backtesting and executing quantitative forex trading models with real-time market data analysis

Aerodynamics Engineer GT Compressor
OCT. 2012 - DEC. 2016

Ansaldo Energia (formerly Alstom Power) · Baden

- Led aerodynamic design of gas turbine compressors for power generation facilities
- Modernized legacy Rolls-Royce design system using Python, PyQt, and PostgreSQL
- Managed technical integration of design software during corporate acquisition, coordinating cross-functional teams

EDUCATION & CERTIFICATIONS

Master of Computer Science (Grade 1.4)
University of Applied Sciences Trier - Distance Learning · Trier / Remote

GRADUATED 2019

- Master's Thesis: Domain-Driven Design, Microservices Architecture, CQRS, Event Sourcing (Grade 1.0)
- Completed distance learning program alongside full-time software engineering projects
- Specialized in distributed systems, software architecture patterns, and enterprise integration

Diploma in Mechanical Engineering (Grade 1.7)
GRADUATED 2012

Technical University of Kaiserslautern · Kaiserslautern

- Specializations: Energy Technology, Mechanical Engineering Fundamentals, Fluid Mechanics
- Diploma Thesis at Rolls-Royce, Dahlewitz: Numerical Investigations & CFD Simulations of Casing Treatments (Grade 1.0)

High School Diploma (Grade 2.2)
GRADUATED 2007

Christian von Mannlich Gymnasium · Homburg (Saar)

- General university entrance qualification

Professional Certifications
2018 - 2022

iSAQB · IREB · Vaughn Vernon

- Certified Professional for Software Architecture, Foundation Level (iSAQB), Oct. 2022
- Certified Professional for Requirements Engineering, Foundation Level (IREB), Apr. 2019
- Domain-Driven Design Workshop with Vaughn Vernon, Sep. 2018

Programming & Technologies

- C#/.NET Core, Java, Python
- TypeScript, React, Angular, Next.js
- GraphQL, REST APIs
- SQL Server, PostgreSQL, MongoDB, RavenDB
- Kafka, Event Streaming
- Functional & OO Design Principles

Leadership & Domain

- Technical Leadership, Mentoring, Code Reviews
- Agile/Scrum, Lean Development
- Private Banking, Wealth & Asset Management
- Insurance, E-commerce, Energy Trading
